(517) 881-5924 | jaberin@umich.edu | [linkedin.com/in/neelufarjaberi](https://www.linkedin.com/in/neelufarjaberi) | Ann Arbor, MI

EDUCATION

University of Michigan

Ann Arbor, MI

Bachelor of Science in Computer Science, Minor in UX Design

Aug. 2023 – Dec. 2026

- Relevant Coursework: User Interface Development, Web Systems, Data Structures & Algorithms, Databases, Statistics & Data Analysis, Human-Centered Software Design & Development, Software Engineering

EXPERIENCE

Capital One

June 2026 – Present

Product Management Intern, Payment Intelligence Team

McLean, VA

- Led retailer entity expansion research, interviewing 6 downstream stakeholder teams and evaluating 6 data vendors across 3 new entity types to produce a roadmap closing a 24-point non-card transaction coverage gap
- Designed and prototyped a data product portal supporting contribution and viewing for 3 new entity types, enabling scalable rule and metadata management to unlock use cases tied to 6M+ addressable travel spend
- Proposed 13 monitoring metrics with data science partners and built an AI model to detect and flag stale merchant entity data, defining evaluation criteria and edge-case handling within the existing review workflow

SRI International

May 2025 – Sept. 2025

Software Engineer Intern

Ann Arbor, MI

- Built computer vision and data pipelines processing thousands of images to identify 6+ candidate paths for autonomous vehicle path planning across production and edge deployments
- Engineered a CI/CD validation framework with automated testing achieving 85% coverage across 1K+ sonar measurements, ensuring system reliability and data integrity for government stakeholder deliverables

Youphoria

May 2025 – Feb. 2026

Product Director

Remote

- Shipped 2 features (guided workout and meditation flows) for a wellness app serving 2,000+ users, collaborating with a 5-person team and using Firebase to track user engagement

Google Community Leaders

Sept. 2025 – Present

Digital Consultant

Ann Arbor, MI

- Provide strategic digital marketing consulting to 6 Metro Detroit nonprofits across Google Analytics, Google Ads, and online presence optimization, and collaborate on digital literacy programs across 8 national chapters

LEADERSHIP & PROJECTS

Kappa Theta Pi (Professional Technology Fraternity)

Sept. 2023 – Present

Product Manager

Ann Arbor, MI

- Translated user needs into product requirements for a cross-platform iOS/watchOS app used by 500+ members
- Led an Agile team of 8 engineers to deliver 4 features through roadmap planning, sprint prioritization, and feature delivery across two major release cycles informed by user feedback

Product Motion

May 2025 – Present

Project Lead

Ann Arbor, MI

- Led a 15+ member product cohort through product discovery, roadmap planning, user research, and MVP development for hands-on PM projects, mentoring members on PRD writing and stakeholder communication

Project Alivio | Software Engineer | Android, Java, Kotlin, Python, ML

- Developed a medical Android application using Java and Kotlin with ML algorithms to automate Braden Scale pressure ulcer risk assessment, deployed at a hospital in Guatemala
- Engineered a Python backend with data processing pipelines to analyze patient risk factors, collaborating with medical students to integrate clinical protocols supporting healthcare decisions

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, C++, Swift, Java, Kotlin, HTML/CSS

Technologies: React, Flask, Django, Firebase, Tableau, Jira, Figma, LLM APIs, ML

Product & Design: Product Strategy, User Research, PRD Writing, Roadmapping, A/B Testing, UX Design
